## Requirements

### Backflow Prevention Requirements

- If the pool includes an auto-fill system or heater, an approved backflow prevention device must be installed according to the manufacturer's recommendations.
- If the pool is to be filled by a water hose, a vacuum breaker must be installed on the hose bib used to fill the pool.

### Inspection Requirement

- An inspection must be completed by the District's inspector before filling in the pool.

### Re-Inspection Policy

- If the prepaid plumbing inspection fails, the company listed above will be billed for all re-inspections.
- Re-inspection fees are \$120.00 each.
- All re-inspection fees are due within 10 days of receipt of the bill.
- Failure to pay re-inspection fees within the required timeframe will result in termination from the District.

### Plan Submittal Requirements

A complete set of plans must be submitted showing the location of any/all the following features:

- Gas line
- Backflow device
- Auto-fill device
- Utility and drainage easements

**If access to District property is required, the homeowner must submit a Trail and Easement Access Permit Application and agreement.**

(These plans must be filed with the District office at the time the plumbing permit is requested.)

**NOTE:** To ensure contamination of the public water does not occur, all backflow prevention devices must be tested upon installation and every 5 years thereafter. All backflow devices that are installed to protect against health hazards must be tested annually. This is to be done by a certified tester, and a copy must be filed with Brushy Creek M.U.D. This testing will be at the homeowner's expense.
