Requirements

1. All plumbing must comply with the current Uniform Plumbing Code and TCEQ regulations. Any health hazards found in existing plumbing must be repaired.
2. All inspections must be completed by the District's inspector, listed on the permit.
3. If plumbing inspections exceed the standard five (5), the above company will be billed for the re-inspections. Re-inspection fees are \$120.00 each. A certificate of occupancy will not be issued until all fees are paid.
4. A set of plans, or details to scope of work must be submitted to the District before this permit will be issued. If additional square footage is being added to structure, this application does not apply. Please use the District's Add-On permit application.

NOTE: To ensure contamination of the public water does not occur, all back flow prevention devices must be tested upon installation and every 5 years thereafter. All back flow devices that are installed to protect against health hazard must be tested annually. This is to be done by a certified tester, and a copy must be filed with Brushy Creek M.U.D. This testing will be at the homeowner's expense.

Residential and Commercial Plumbing Inspection Fee = Prepay for five (5).
